Food contact Declaration**Nettuno FF [NQ]**

The above-mentioned hose (identification code NQ) is manufactured by Industrie Plastiche Lombarde SpA in the site of Besozzo - Italy, according to the following normative and regulations:

EU

- CE Regulation n° 1935/2004 and following updating.
- EU Regulation n° 10/2011 of 14 January 2011 on Plastics Materials and articles intended to come in contact with foods.
- Commission Regulation (EU) No. 2023/2006 of 22 December 2006 on the Good Manufacturing Practices.

The hose can be used for transfer of foodstuffs for which tests with the following simulants are required:

- A (moist food products with pH > 4.5 and food products containing alcohol up to 10% v/v)
- B (acid food products with pH < 4.5)
- C (food products containing alcohol up to 20% v/v)
- D1 (food products containing alcohol up to 50% v/v)

The hose are in compliance with the overall migration limits and specific restrictions, evaluated under the in the following conditions:

- Simulants B (acetic acid 3%) and D1 (ethanol 50%)
- Time and temperature of testing: 10 days/40°C
- Ratio of food contact surface area to volume in the range $2=0,5 \text{ cm}^2/\text{cm}^3$

The hose contain substances which are subject to a restriction :

- CAS 8013-07-08 ESBO
- CAS 6422-86-2 DOTP
- CAS 75-01-4 Vinyl chloride monomer
- CAS 2082-79-3 Octadecyl 3-(3,5-di-Tert-butyl-4-hydroxyphenyl) propionate
- CAS 68441-17-8 Oxidized polyethylene waxes
- CAS // Zinc, salts
- CAS // Calcium salts of fatty acid (DUAL USE art. 11 3a)

The wall and the spiral reinforcement of the hose are manufactured with raw materials that comply with the above regulations; the raw material used for the wall does not contain, intentionally added, any of the plasticizers of the orthophthalates group.

We want to call your attention to the fact that, according to the law, the final user is responsible to check the technological suitability of the hose referred to the purpose for which it is assigned.

Industrie Plastiche Lombarde S.p.A.
